AIRKEY® MAXIMUM SECURITY REMOTE

AKTX2

When security really matters – at no extra cost!

Neatrol Systems   www.neatrol.com.au

The AKTX2 remote control transmitter is designed to deliver unparalleled security for all domestic and commercial applications.

Features:

• 69 bit encrypted data transmission guarantees security.

• Each transmitter is uniquely coded and cannot be replicated.

• Self learning receiver technology stores up to 85 unique transmitters.

• Can be used to replace any existing remote control system.

• Convenient size allows attachment to key-ring or under dash placement with velcro.

• Easy to add new transmitters with the push of a single button.

• Two channel transmitter allows for optimal flexibility.

• 433.92MHz crystal locked transmitter frequency immune from interference caused by baby monitors, 27MHz CB radio etc.

• All transmissions immune from code grabbing and code scanning techniques as often used by ever resourceful thieves.

• In built transponder circuitry allows transmitter to be used with an optional active transponder receiver when the on board battery is flat or missing.

• No price penalty for far superior technology.

Applications:

• Garage doors, automatic gates.

• Remote arming and disarming of security alarms.

• Personal emergency transmitters.
